ABSTRACT

Summary statistics for students transferring to and from institutions of the University System of Georgia during the 1987-88 fiscal year (summer quarter 1987 through spring quarter 1988) were compiled for this report. The data are presented in five tables showing transfers from two-year colleges to senior colleges, from two-year colleges to two-year colleges, from senior colleges to two-year colleges, from senior colleges to senior colleges, and from non-system institutions to system institutions. Key findings include the following: (1) of the 16,954 students who transferred into system institutions, 7,921 (46.7%) came from institutions outside the system, and of these, 2,048 were from in-state non-system institutions and 5,873 transferred from out-of-state schools; (2) 9,033 students transferred between system institutions; (3) the largest flow was from senior colleges to other senior colleges, with the 3,766 students in this category representing 41.7% of within-system transfers; (4) the second largest flow was from two-year colleges to senior colleges, including 3,608 students who comprised 39.9% of within-system transfers; (5) the transfers from two-year colleges to two-year colleges (N=398) and from senior colleges to two-year colleges (N=1,261) were relatively small in number; and (6) students transferring from two-year colleges to senior colleges had a very slight overall decrease of .08 in grade point average (GPA) after transferring, while the other three categories of within-system transfer students achieved an overall higher GPA after transferring. MEMORANDUM

TO: Chancellor H. Dean Propst

FROM: Haskin Pounds

SUBJECT: 1987-88 Transfer Report

Attached is the 1987-88 Transfer Report and Report Summary. The 16,954 students who transferred into System institutions represented an increase of 3,514 over the 13,440 who transferred in 1986-87.

I would be pleased to answer any questions about the report.

UNIVERSITY SYSTEM OF GEORGIA

UNDERGRADUATE STUDENT TRANSFER REPORT SUMMARY

This report provides summary statistics for students transferring to and from institutions of the University System of Georgia during the 1987-88 fiscal year (Summer quarter 1987 through Spring quarter 1988).

The data are presented in five tables showing transfers from: 1) two-year colleges to senior colleges, 2) two-year colleges to two-year colleges, 3) senior colleges to two-year colleges, 4) senior colleges to senior colleges, and 5) non-System institutions to System institutions. Data are included for those transfer students for whom both sending and receiving grade point averages were submitted.

To read the report, select the appropriate table and locate the sending institution at the top of the page and the receiving institution at the left side of the page; the data are presented where column and row intersect. For example, Table 1 presents data for students transferring from two-year colleges to senior colleges. Abraham Baldwin Agricultural College is listed in the first column at the top of the page, and the University of Georgia is listed in the fourth row at the left of the page. The fourth listing below ABAC indicates that ABAC sent 74 students to the University of Georgia, and that those students had a 2.79 GPA at ABAC and a 2.81 GPA at the University of Georgia.

Several important observations can be made from the data:

1) Of the 16,954 students who transferred into System institutions, 7,921 (46.7%) came from institutions outside the System. Of these, 2,048 were from in-state non-System institutions and 5,873 transferred from out-of-state schools,
2) 9,033 students transferred between System institutions,
3) the largest flow was from senior colleges to other senior colleges, 3,766 students (41.7% of within-System transfers),
4) the second largest flow was from two-year colleges to senior colleges, 3,608 students (39.9% of within-System transfers),
5) the transfers from two-year colleges to two-year colleges, 398, and from senior colleges to two-year colleges, 1,261 were relatively small in number,
6) students transferring from two-year colleges to senior colleges had a very slight overall decrease of .08 in GPA after transferring. Thus overall the two-year colleges are doing a good job of preparing their students for transfer to senior institutions. The other three categories of within-System transfer students achieved an overall higher GPA after transferring.

The data for this report were supplied by the institutions through the Student Information Reporting System. We greatly appreciate the work of all those responsible for providing the data. Questions about the report should be directed to the Office of Research and Planning (GIST 221-2213).
